Portable HF Antenna System

VHF Mast Mount Feedpoint

Model: VM

George KJ6VU

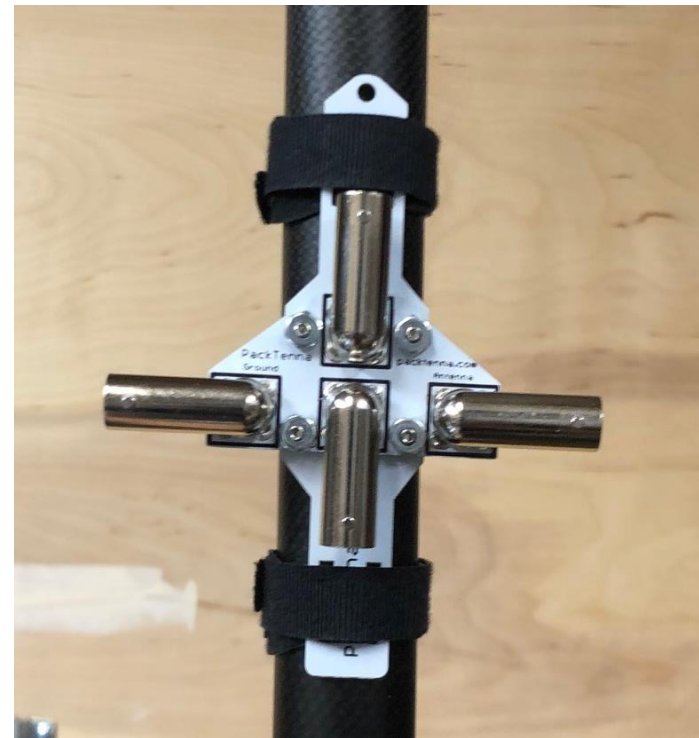

VHF antenna mount

Designed for Comet BNC-24 2m/UHF whips

Like the TrekMount it will give you a horizontal dipole for 2m SSB/CW and a single ground plane element for a vertical radiator for FM

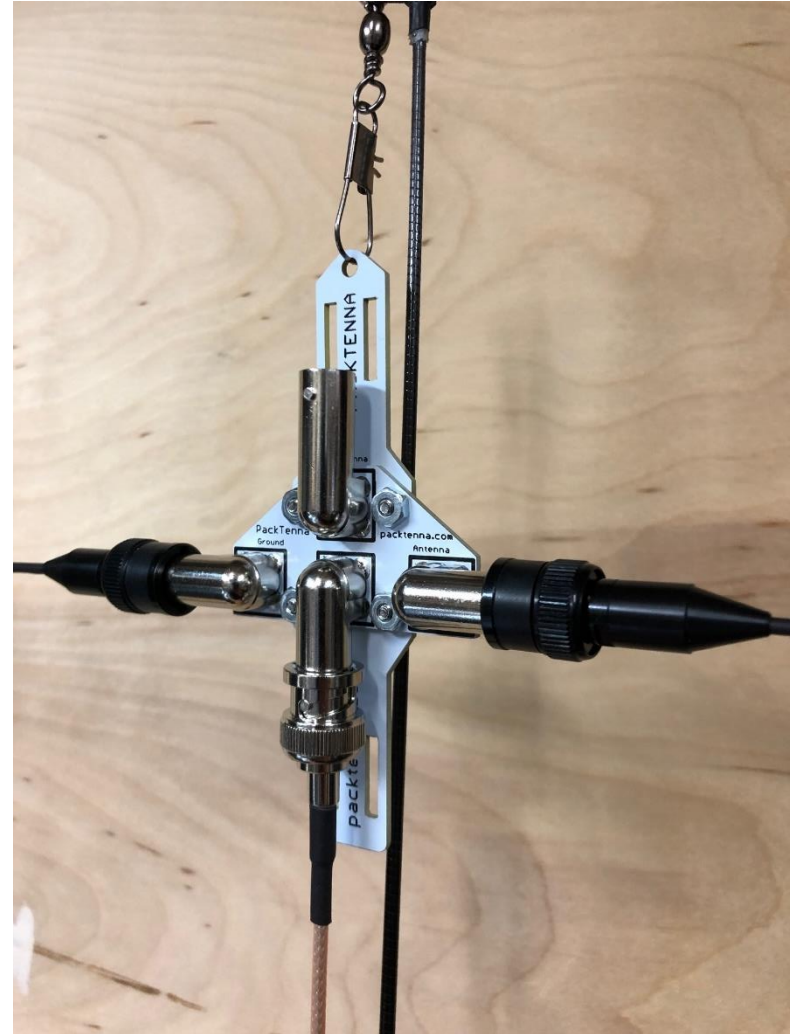

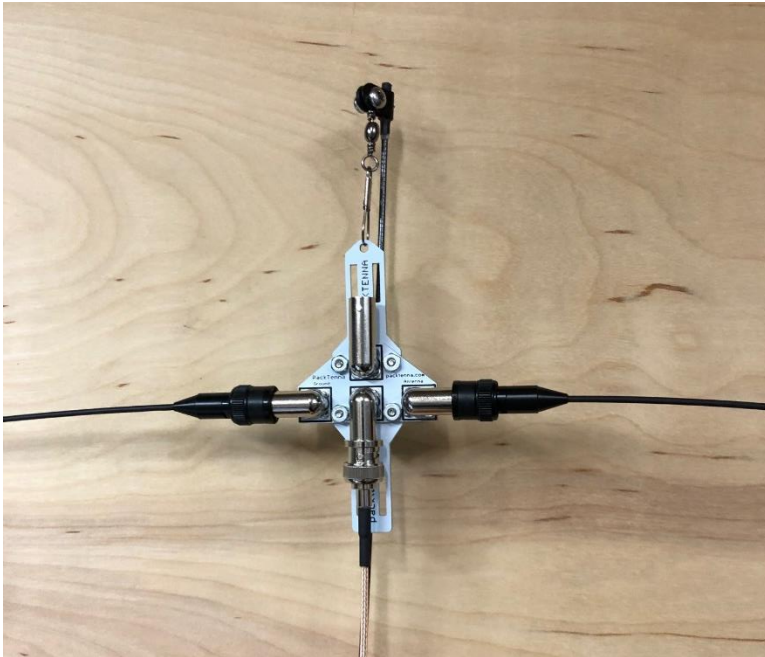

Supplied with two Velcro straps for easy mounting to any mast.

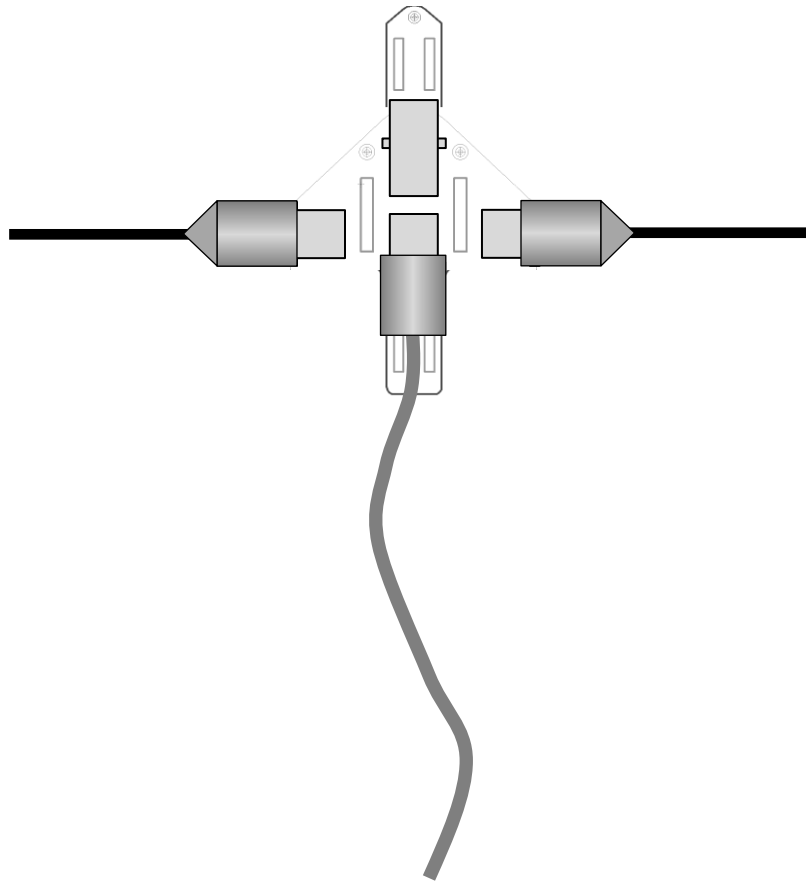

VHF Mast Mount

Easily supported from the top

Standard Configurations

VHF SSB/CW
Horizontal Polarization

VHF FM
Vertical Polarization
